ORDER:

In the reference 1st read above, the Chief Engineer, Central Designs Organization has communicated the recommendations of the Standing Committee in its meeting held on 19.05.2012 for issuance of No Objection Certificate to M/s.Nagavaram Power System Private Limited, Hyderabad for establishing 1.5MW Mini Hydel Scheme on Nippulavagu at Santhajatur anicut, Bandi Atmakur(M), Kurnool District, subject to certain conditions mentioned therein.

2. In the reference 4th read above, the Engineer-in-Chief(Irrigation) endorsed the report of Chief Engineer, Kurnool on the following points viz., the excavations of foundations of power house can be done by mild and control blasting or using rock breakers if necessary. Both approach and tail race channels can be excavated without blasting as the depth is about 2 metres and will not affect the safety of the existing structures of the anicut and the canal system. There may not be any adverse impact on water regulation due to construction of Power house. He recommended issue of N.O.C. subject to certain conditions therein.

3. Government after careful examination, hereby issue "No Objection Certificate" for establishing 1.5MW (2x0.75) Mini Hydel Scheme on Nippulavagu at Santhajatur anicut, Bandi Atmakur(M), Kurnool District, subject to the following conditions in addition to the General and Technical Conditions already issued vide Para-5 in G.O.Ms.No.165, I&CAD(PW:Reforms) Department, dated:11.07.2007:-

- i) The Developer to commence the work within (6) months from the date of issue of N.O.C. and complete the Scheme within two years of N.O.C. failing which N.O.C. will be cancelled automatically.
- ii) The regulator shall be constructed by the developer and handed over to the project authorities for water regulation.
- iii) The developer has to develop a mechanism to regulate the water flows as per Departments requirements and clearance by C.D.O.

P.T.O.,

- iv) Design aspects have to be looked into formation of bunds if necessary on upstream and downstream to avoid damages to adjacent villages taking into consideration of MWL fixed with respect to Design floods.
 - v) FRL & TWL of the schemes may affect the adjacent drains. As such the required design parameters of the Mini Hydel Scheme should take into consideration of above aspects to see that the existing drains are not affected.
 - vi) It is not the responsibility of the Government/I&CAD/NEDCAP/ etc., for the economic viability and projected generation on power as shown in the DPR, which was submitted by the Developer in issuing of NOC of the proposed scheme.
 - vii) I&CAD will not hold any responsibility for profit/ loss of the project and assured sale of energy. In the above aspects, the developer has to own up responsibility for any purpose whatsoever.
 - viii) All the prevailing standards of Electricity Act and Rules & Regulations of the Government of A.P./Government of India issued from time to time shall be followed in various stages like finalization/selection of the equipment, etc.
 - ix) Developers shall be encouraged to bring latest technology and maximise output subject to the Hydrological factors and environmental flow factors.
 - x) The Chief Engineer, Central Designs Organization shall ensure that approval for designs is given in (15) days time failing which the developer will be permitted to go ahead for execution as deemed approval.
 - xi) The royalty charges on water as applicable would be realized by the I&CAD on monthly basis.
 - xii) No claims or damages shall lie with the Government for the cancellation/suspension of N.O.C. for the reasons of River conservancy/floods management etc.
4. The Engineer-in-Chief(Irrigation), Hyderabad shall take necessary action accordingly.

(BY ORDER AND IN THE NAME OF THE GOVERNOR OF ANDHRA PRADESH)
